MEDICAL.

TAKE
SIMMONS' LIVER REGULATOR
For all diseases of the Liver, Stomach and Spleen.
WILL CURE
DYSPEPSIA.
I MUST OWN that your Simmons' Liver Regulator fully deserves the popularity it has attained. As a family medicine it has no equal. It cured my wife of a malady I had counted incurable—that wolfbane of our American people, Dyspepsia.
A. E. ALBERT, Professor in Nicholas Public School, Parish of Terrebonne, La.

MALARIOUS FEVER.
You are at liberty to use my name in praise of your Regulator as prepared by you, and recommend it to every one as the best preventive for Fever and Ague in the world. I plant in southwestern Georgia, near Albany, Georgia, and must say that it has done more good on my plantation among my negroes than any medicine I ever used. It suppresses malarious fever in ten days. Yours, &c., **Hon. B. H. HILL**, Ga.

CHILDREN'S-YOUR Regulator is superior to any other remedy for Malarial Diseases among children, and it has a large sale in this section of Georgia.—**W. M. Russell**, Albany, Ga.

CONSTITUTION.
TESTIMONY OF THE CHIEF JUSTICE OF GEORGIA.—I have used Simmons' Liver Regulator for constipation of my bowels, caused by a temporary derangement of the liver, for the last three or four years, and always, when used according to the directions, with decided benefit. I think it is a good medicine for the derangement of the liver—at least such has been my personal experience in the use of it.
HIRSH WALKER, Chief Justice of Georgia.

SICK HEADACHE.
EDITORIAL.—We have tested its virtues, personally, and know that for Dyspepsia, Biliousness and Throbbing Headache, it is the best medicine the world ever saw. We have tried forty other remedies before Simmons' Liver Regulator, but none of them gave us more than temporary relief; but the Regulator not only relieved but cured us.—**Editor Telegraph and Messenger**, Macon, Ga.

COLIC AND GRUBS IN HORSES.
Having had during the last twenty years of my life to attend to Sucking Stock, and having had so much trouble with them with Colic, Grubs, &c., gave me a great deal of trouble. Having heard of your Regulator as a cure for the above diseases, I concluded to try it. After trying one package I was much surprised to find in every instance it is only to be tried to prove what I have said in its praise. I can send you certificates from Augusta, Clinton and Macon, as to the cure of horses.

The Poor Carpet-Baggers.
The Washington correspondent of the Baltimore Sun says:

"The carpet-baggers of Virginia and other Southern States have taken the alarm at the indications of a radical change of Southern policy with a change of administration. It is understood that movements are on foot with a view to secure the resurrection of the defunct Washington Chronicle as an advocate for the continuance of the Grant policy in the South, and to uphold the claims of the carpet-baggers to the federal patronage. The carpet-baggers think they need a newspaper organ here since the National Republican, which has always been their staunch ally, has forsaken them and gone in for the proposed new policy of moderation. It is said that private circulars have been sent around calling for a meeting of the carpet baggers at Richmond to-morrow to consult on the situation and take such means as they may think necessary to save to them a few crumbs of the public patronage. But there is no help for the carpet-baggers; their day is over, and the sooner they realize it the better for themselves. It may not console them to know that there is no longer any doubt that Gov. Morton favors the new policy toward the South, and it is understood that Mr. Blaine and Mr. Conkling also do."

The Washington Republican of this morning says:

"The source of free government is the people; and when a government of the people, in form, ceases to be such in fact, it has no longer rightful sway, and rules, if at all, as a despotism. It is not the principle, but the practice, of government that constitutes oppression, and the best government on earth, created and operated over the heads of an unwilling people, is, in practice, the very worst. What can be more at variance with the principle of republican government than a system of taxation and police regulation sustained by men who neither own the property to be taxed nor constitute the society to be affected by the laws enacted and enforced? And what is a more oppressive and more repugnant to a proud people than a government maintained by persons foreign to their soil and strangers to them? Let any citizen of a free State answer, Ireland, Hungary and Poland are familiar instances of such government, and their people have the sympathy of the world. And yet these governments are rendered tolerable to the philosophic mind, by being the creatures of conquerors, whose powers are rightful by common consent. In such instances of oppression men bear their necks to the yoke as a dispensation of fate, without even asserting the right to question its justice. But where a people are nominally free, inhabiting a State controlled by their fathers for generations, and belonging to a confederation of States known and recognized as the freest among men, but who are nevertheless governed by aliens supported by a service race in their midst, what shall be said of them? Let those enjoying true liberty, reply."

And yet this is the character of government existing in a number of the States of the South, and seen in their true light by the whole people of the United States. They proceed from a sort of military deposit left in those States at the close of the war, which, as a nucleus of strength, for a time drew to it a native element recently released from bondage, and, therefore, supposing itself the natural enemy of its former owner. For more than a decade this nucleus has controlled the destinies of the States it dominates, and until now has been able to hold out against a very effort on the part of the original inhabitants to obtain release from its thrall.

AGRICULTURAL.
LANDRETH'S GARDEN SEEDS—We are in receipt of our usual Spring supply of Seeds from the above named old and reliable firm. Our stock will be found to comprise all the old and well known and some new varieties, and being offered at as reasonable prices as reasonable, for a time draw to it a native element recently released from bondage, and, therefore, supposing itself the natural enemy of its former owner. For more than a decade this nucleus has controlled the destinies of the States it dominates, and until now has been able to hold out against a very effort on the part of the original inhabitants to obtain release from
